

## Welcome to NIJets

This is the official website of the Northern Ireland Jet Modellers Association. NIJets was formed following the recent success of the Northern Ireland Jet team at the 2007 world Jet Masters where the team finish 9th out of the 26 participating countries at the event. The Northern Ireland Jet Modellers Association's purpose is to promote and foster the development and involvement of Jet aeromodelling in N.Ireland and Ireland. To actively facilitate and participate in national and international jet events and to encourage and assist modellers to transition into jet modelling safely. We intend to pursue this objective through an active association with the BMFA, IJMC and other organisations by seeking out and facilitating flying opportunities at world class venues and by providing advice and assistance to members and others interested in jet modelling.
